

Year 2 Summer 2 2022.
What if you lived beside the seaside?

Week	NC objectives	Big question	REMEMBER (prior knowledge)	KNOW (new knowledge)
1	Name and locate the world's 7 continents and 5 oceans. Name, locate and identify characteristics of the 4 countries and capital cities of the United Kingdom and its surrounding seas.	Where do you find the seaside?		A beach first forms when waves from the sea deposit sand and gravel along the shoreline. The coast is where the land meets the sea. Seasides are found at the coast.
2		What would you see at the seaside in the UK? (human & physical features)	Physical features are part of nature; they occur naturally. Human features are made by people.	Physical features of the seaside: beach, bay, sand dunes, cliff, coastline, sea, ocean. Human features of the seaside: harbour, lighthouse, pier, promenade, port.
3	Use basic geographical vocabulary to refer to: key physical features & key human features.	Do all countries have a seaside?	Seasides are found at the coast.	Seasides are only found in countries that have a coastline. Landlocked countries do not have a seaside. Know some European countries that do not have a seaside/coastline.
4	Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage.	Is it always hot at the seaside?	Where hot and cold places in the world are located.	The temperature at the seaside depends on the location. The temperature at the coast is often cooler than the temperature inland. Seasides closer to the equator will be hotter than seaside further away from the equator.
5	Use simple compass directions (north, south, east and west) and locational and directional language [for example, near and far, left and right], to describe the location of features and routes on a map.	Are all seaside the same?	Human and physical features of UK seaside.	Beaches can be made of sand, shingle or pebbles. Seasides will have different features according to the traditions of the country they are found. Seaside features in the UK might not be found at seaside around the world.
6	Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple sketch map.	Will the seaside be here forever?	Ocean pollution ~ its causes and what we can do to help.	Climate change is causing sea levels to rise. This could eventually lead to coastal areas being permanently flooded. Beaches are in danger of being lost due to erosion caused by humans.
